Administration, Teachers And Support Staff Make Up The 115+ People Who Go One Step Further To Make CCMS A Better Place. Here At The Middle School We Use A Team Approach. Each Student Is Assigned To A "Team" Of Teachers In English, Math, Science And Social Studies. This Allows Teachers To Work More Closely In Developing Our Program.

Thoughts on steps . . .

While it is important to choose your own path, initially following others' footsteps is particularly important for middle school students. The footsteps of your teachers, family, and significant role models in your life will help guide your journey. In this regard, a saying hangs in my office that has special meaning. It was written many years ago by Carl Schurz. . .

> "Ideals are like stars; you will not succeed in touching them with your hands. But like the seafaring man on the desert of waters, you choose them as your guide, and following them, you will reach your destiny."

I encourage you to pursue your dreams and to "reach for the stars". As step-by-step you go forward on the wonderful journey of life, look back with fond memories to your years at Churchville-Chili Middle School and the guides who helped you. May your future successes know no limit, may your joys be many, and may your journey be full.

Best regards!!

Joseph W. Hoff

Lockers, Assignment Books, Homework, Dances, Morning Announcements . . . Are Just A Few Of The Things The 6th, 7th And 8th Graders Have On Their Minds. With Just 4 Minutes Passing Time, Just Getting To Classes Can Be A Major Feat. Add A Nine Period Day And You Have A Full Schedule. The Seventh And Eighth Graders Also Take An Additional Foreign Language Class In French Or Spanish. To Make Matters Worse, You Worry About Whether It's An "A" Day or A "B" Day - "Do I Have Gym Or Technology Today?"
